16	**MD · Frank (Keys)**	MIC	*Boom stand at keys*	—	IEM ONLY

II. PRODUCTION NOTES *Routing, positions, and provisioning*

DRUMS · HYBRID KIT

Kick on its own DI, both toms combined into a single DI — both sourced from the drum module. Snare and overheads are miced.

KEYS & GUITAR · FRANK

Frank plays both keys and guitar. Two separate DI lines: Ch 06 Keys, Ch 07 Guitar. Both mono.

PLAYBACK

Two DI inputs from the playback rig, positioned upstage next to the drum kit and cued by Rafe. Ch 12 CLICK / GUIDE is IEM only — do not send to FOH. Ch 13 TRACKS is sent to both FOH and IEMs.

MD COMMUNICATION MICS

Ch 14 – 16 are communication mics for Rafe (drums), Pete (bass), and Frank (keys). Route to IEM mix only. These are NOT for front-of-house.

STAGE POSITIONS

Downstage · Nick, Emily (Lead Vocals)

Stage Left · Frank (Keys, Guitar, Vocal)

Stage Right · Marc (Guitar), Pete (Bass)

Upstage Center · Rafe (Drums)

POWER & CABLING

Power drops required at each position. All DI boxes and IEM packs provided by the band unless otherwise arranged.

Honeymoon

TECHNICAL RIDER · STAGE PLOT

ENSEMBLE	6-Piece Band
STAGE	Standard Pro
VIEW	Audience POV
DOC · REV	v1.0

III. STAGE PLOT *Positions, microphones, DI lines, and power*
